Other registrations and declarations
GENERAL OVERVIEW

A foreign company may organize its business in Albania through establishment of a branch.

Considering that the parent company and the branch have the same legal personality, there are no capital requirements (the parent company may allocate to the branch the funds considered opportune and appropriate for the branch to conduct its activity in Albania).

The branch is managed by one or more managers, foreigner or Albanian.

Registration with the Albanian Commercial Register kept by the National Registration Center (NRC) implies also registration for tax purposes.

Upon completion of the procedures of registration, the NRC issues to the branch the business number (which is also used as tax identification number) and the certificate of registration.
DOCUMENTS TO BE FILED

- **Application form**

- **Resolution of decision making body of parent company on establishment of the branch**
  - To be certified by a public notary
  - Issued no before than 90 days from application date with NRC

- **Articles of Incorporation and/or Bylaws of the parent company**

- **Extract of the Chamber of Commerce of the country where the parent company is registered**
  - The resolution must be printed in the letterhead of the company and sealed with the stamp of the company. If no seal is available, the resolution must be notarized by a public notary
**DOCUMENTS TO BE FILED**

- Good standing certificate issued by the relevant authority in the country where the parent company is registered.
- Notarized copy of manager’s passport/ID card and simple copy of passport of parent company’s head officer.

The application form along with the above documents must be filed before the effective commencement of the activity (i.e. from the date of signature of the resolution on establishment); otherwise, a penalty in the amount of ALL 15,000 (approx. EUR 110) applies.

All the documents presented for registration purposes with Albanian public authorities, in foreign language and executed abroad or issued by foreign public authorities, should be in original or certified true copies (only one original or certified copy is needed). In addition, the documents should be legalized (with apostille) in accordance with the Hague Convention of October 1961 if the country of residence of the foreigner has ratified such Convention and has not expressed any reserve as regards its application in Albania; otherwise, the so-called “traditional legalization procedure” should be followed. They shall be then translated into Albanian language and such translation must be notarized (certified) by an Albanian public notary.

The certificate of registration of a new business must be issued by NRC within one day from the application date if the presented file is accurate and complete. However, in practice, the registration with the NRC takes approximately 2-3 days.

The official fees for establishment and registration of the branch with the NRC consist of the following:
